

CAREER PATHWAYS

Identifying the right program of study does not mean the same as choosing a career; however, some programs are designed to prepare students for specific careers (dental assisting, for example). If you are one of few who know what career you want, you may want to identify programs that will contribute to your overall preparation. If you are one of those who just can't seem to figure out what type of career you want, you can explore programs based on the skills and knowledge you would gain and how that education can prepare you for a variety of employment opportunities.

Browse information related to Trenholm State's programs via Career Coach online in the subpages listed below. You will obtain valuable information from reading program descriptions, career options, and initiate a conversation with your academic or career advisor. Take a [career assessment](#) to learn about yourself and receive career suggestions based on your interests.
