College Navigator

INSTITUTIONAL RESEARCHERS:

Bridging the Gap Between Data and Decisions

The National Center for Education Statistics (NCES) developed the **College Navigator** to assist prospective students in gaining information about colleges. Using this tool, prospective students can find the right college for them. The College Navigator consists primarily of the latest data from the Integrated Postsecondary Education Data System (IPEDS), the core postsecondary education data collection program for NCES. The Office of Institutional Research and Advancement is responsible for ensuring that all IPEDS reports are accurate and submitted in a timely manner for Trenholm State.

Using this robust search tool, prospective students can obtain information about colleges, such as tuition, fees, and estimated expenses, financial aid, average net price, enrollment, admissions, retention and graduation rates, programs/majors, service members and veterans, athletics (if applicable), accreditation, campus security, and cohort loan default rates.
