FACULTY GOVERNANCE

To ensure that the faculty is fully engaged in the governance of the College, each faculty member will serve on standing and ad-hoc teams, councils and/or committees each year. Conversely, all College teams, councils and committees will include faculty representation. In particular, faculty will be represented on the Institutional Planning Council and in budget hearings through their Division Chairs and Program Coordinators. Teams, councils and committees whose work substantially impacts instructional matters will have a majority faculty membership and a faculty-member chair or co-chair. These will include, but not be limited to, the Curriculum Committee, Distance Education Committee, Student Disciplinary Team, Learning Resources Team, and Academic Calendar Team. Furthermore, two faculty members serving as lead instructors (one per campus) will serve on the President's Cabinet to ensure that faculty has a voice at all levels of administration.
